I would like to suggest this outstanding organisation to any student who is willing to gain a new experience and increase their knowledge. Your colleagues will be like your family. In addition, I enjoyed a marvellous nature of Italy! I gained many new skills such as web-designing or digital marketing. I became familiar with project management and the structure of European ERASMUS community. Also, I made many new friends from different countries! Join AMFI International and this will be one of the best life experiences you have ever done!)))

Grazie mille and thank you Amfi! ❤️ I want to say thank you for giving me the opportunity for both, working in a great intercultural environment and learning a lot of social media/digital marketing. For me it was an unforgettable experience. On my side a young fresh and amazing team which involved me in all kind of tasks as a real employee and supported me always. You helped me developing and improving different skills which are valuable for my future life as well as you give me the chance to become part of your great team, thus to get to know and live the Italian spirit! Thank you Amfi for an amazing time and for making my two-month internship and stay in Italy the best!! I wished I could stay longer, all the best for you! Julia
